Re: Application for Software Engineer / Data Scientist AI (d/m/w/x)

I am excited to apply for the Software Engineer / Data Scientist AI position at Mercedes-Benz Tech Innovation, where I can leverage my passion for artificial intelligence and machine learning to drive innovation in the automotive industry. With a strong background in designing and evaluating deep learning models, I am confident that my skills and experience make me an ideal fit for this role. I am particularly drawn to Mercedes-Benz Tech Innovation's commitment to technological advancements and its emphasis on individual freedom and responsibility.

Throughout my career, I have developed a strong foundation in machine learning, deep learning, and cloud-native software development. In my previous role at Folio3, I improved vitiligo segmentation accuracy to 94% and increased speed by 5x using AI algorithms, demonstrating my ability to drive impactful results. I have also worked with various technologies, including PyTorch, TensorFlow, and HuggingFace, and have experience with cloud platforms such as Azure, AWS, and GCP. Additionally, my experience in building dashboards for data visualization and model performance monitoring has equipped me with the skills to effectively communicate complex technical concepts to stakeholders. My project, Saaz, which involved building the world's first AI-driven self-playing Chitralli Sitar, showcases my ability to combine signal processing and music generation LLMs to create innovative solutions.

I am excited about the opportunity to join Mercedes-Benz Tech Innovation and contribute my skills and experience to the development of cutting-edge AI solutions. I am confident that my passion for innovation, my strong technical foundation, and my ability to work effectively in a team make me a strong fit for this role. I look forward to discussing my application and how I can contribute to the success of Mercedes-Benz Tech Innovation. Thank you for considering my application. I am eager to take the next step and explore how my skills and experience align with the company's vision and goals.

Sincerely,

Muhammad Haider Zaidi
